Aerial Work Platforms

More than 60 years of experience!

Key Features:

- * 6.3m Working Height
Reach elevated work zones with ease and precision.
- * 300 kg Max. Platform Payload
Heavy-duty platform supports personnel and equipment.
- * Robust Platform
Spacious 3m x 1.7m cage ensures comfortable operation.
- * User-Friendly Control
Proportional PLC-controlled system with intuitive fingertip joysticks.
- * Rear Access Ladder
Secure entry to the platform via a ladder mounted at the vehicle's rear.
- * Stable & Safe
Operates reliably up to 2° tilt. Solid outrigger design enhances stability.
- * Compact & Durable Design
Built for the demands of daily commercial use in tough environments.
- * Quick Deployment
Mounted on a standard 3.5t truck chassis for easy transport and rapid setup.

Vehicle-Mounted Scissor Lift – 6m Working Height Compact. Reliable. Built for Infrastructure.

Designed for efficiency and safety, this vehicle-mounted scissor lift is the ideal solution for infrastructure maintenance, installation, and service tasks. Mounted on a 3.5t GVW truck, it delivers unmatched mobility combined with a working height of 6.3 meters and a 300 kg platform payload — perfect for two operators with tools.

Specifications may vary depending on vehicle type, platform payload, outrigger configuration, and overall GVW.

Effortless to operate. Built to last. Ready when you are.
