Custers Aviation

More than 30 years of experience!

Engineered for precision and reliability, the F16 Cockpit Ladder Access Stand by Custers® is specifically designed to provide safe and efficient access to F16 aircraft cockpits. Suitable for both indoor and outdoor use, this robust access stand meets EN 12312-8 standards, ensuring compliance with the highest aviation ground support safety requirements.

Key Features:

- * Optimized Platform Height: At 2250 mm, the platform is perfectly aligned for direct access to the F16 cockpit.
 - * Compact Transport Dimensions: Measuring 2600 x 950 x 950 mm, the unit is easily transportable and stowable.
 - * Durable Construction: Built for rugged airbase environments and frequent handling.
 - * Secure Climbing Angle: The 70° stair angle ensures balance between steepness and climbing comfort.
 - * Efficient Design: A 500 x 400 mm platform offers ample standing room, while 500 mm-wide steps provide stability during ascent and descent.
- Compliant with EN 12312-8: Ensuring safety and reliability in every use.

Specifications

Type:	Access stand
Conditions:	In- and outside use
Dimensions (transport):	2600 x 950 x 950
Platform height:	2250mm
Platform dimensions:	500 x 400
Step width:	500mm
Stair angle:	70 degrees
Mass:	-
Class:	EN 12312-8
Max load:	-

Safe access
