More than 30 years of experience!

Engineered for the world's most advanced fighter jet, the F-35 Cockpit Ladder delivers unmatched access, safety, and durability. Designed to meet the rigorous demands of both military flight line and maintenance operations, this stand is your trusted solution for fast, secure cockpit access in any environment.

Key Features:

- * Precision Fit for the F-35: Specifically tailored to the dimensions and requirements of the F-35 Lightning II, ensuring seamless cockpit access without compromising aircraft integrity.
- * Robust and Compact Design: With transport dimensions of 3000 x 1350 x 600 mm, this ladder is built for easy mobility and storage—ideal for both hangar and field operations.
- * Optimal Platform Height: At 2400 mm, the platform is positioned for safe and efficient entry and exit from the cockpit, reducing fatigue and risk for pilots and technicians.
- * Space-Efficient Platform: The 500 x 400 mm non-slip platform provides just the right space for stable, comfortable positioning during ingress/egress.

- * Steep Angle, Minimal Footprint: A 70-degree stair angle allows for a compact design while maintaining safe, ergonomic access.
- * Inside and Outside Use: Fully weather-resistant and compliant with EN 12312-8 standards, it's suitable for all operating conditions—from tarmac to hangar.
- * Built to Last: Engineered with premium materials and craftsmanship, this access stand meets the highest standards of safety, strength, and longevity.

Specifications

Type:	Access stand
Conditions:	In- and outside use
Dimensions (transport):	3000 x 1350 x 600
Platform height:	2400mm
Platform dimensions:	500 x 400
Step width:	500mm
Stair angle:	70 degrees
Mass:	-
Class:	EN 12312-8
Max load:	-

Safe access
